

New Year! New Colors!

What does that mean for you and your project?

1. If your selected color is still being offered, do nothing.
2. If your selected color has been made a heritage color, that's a nice way of saying discontinued, take a look at the stunning new options and pick an alternative.
3. If you are in love with your original pick, and do not want to substitute, please let us know so we can accommodate the inventory ahead of the production time.

For more information or to check inventory levels, reach out to us at quotes@frasch.com
